# President's Message:

Hello fellow ASHRAE members,

The 50th anniversary celebration was a success. It was good seeing all the past presidents and talk about the history of our chapter and what we can do to continue to have a strong chapter moving forward.

That being said, we are always looking for new blood. You don't have to jump into chairing a committee but could instead start as a committee member to learn the ropes, get involved, and see what ASHRAE is all about. For young engineers, this is also an excellent opportunity to network and meet people who have been working in the industry.

I am going to be sending out an election ballot soon for our 2024/2025 Board of Governors. This year we have made a chance to the order of how you progress through the chairs. The first seat held will be secretary instead of treasurer. Our thought is for the first year, when you are still getting your feet under you, you will be taking meeting minutes, instead of being in charge of the chapter money.

Don't forget to find a team and sign up for the RP shootout on May 31st.

Sincerely,

Nathan Lang ASHRAE Alaska President 2023-2024 Alaska Chapter ASHRAE <u>nathan.lang@victaulic.com</u>

## Alaska Chapter Officers and Chairs

Nathan Lang, President Nathan.Lang@victaulic.com

James Boggs, President-elect/CTTC Member jboggs@amc-engineers.com

Jesse Wight-Crask, Secretary Jesse.Wight-Crask@respec.com

Philip Johnson, Treasurer Phil@airsourcealaska.com

Evan Denty, BOG Member emdenty@gmail.com

Sam Ratnasigamani, Student Activities samr@rsa-ak.com

Garrett Prokosch, Membership Promotion garrett.prokosch@convergint.com

Tracy McKeon, CTTC Chair tracy.mckeon@respec.com

Blake Burley, Fairbanks Section President blake@designalaska.com

<u>Jeff Hurd</u>, Grassroots Gov. Advocacy Jeff.hurd@awwu.biz

Philip Hayes, Research Promotion/Historian Philip.Hayes@contractor.conocophillips.com

# ASHRAE Tech Hour Building Decarbonization (Electrification) for Hydronic Systems

Many people have been educated on what decarbonization is, as well is its goals. This presentation delves into how hydronic systems using heat recovery chillers, heat pumps and chiller/heaters can be designed, piped, optimized and controlled in order to provide heat efficiently. Also covered are the impact of hot water and

TECH HOUR ASHRAE 365

outdoor air temperatures, methods to simplify system design and operation, the importance of ensuring building operators and facility managers can operate the systems as intended. The goal is to reduce environmental emissions and make the system as simple as possible, but not simpler

## PDHs are available for this presentation through ASHRAE 365

**Presenter:** Mick Schwedler, PE, FASHRAE, LEED AP BD+C: Mick has been active in the development and support of HVAC systems for Trane since 1982. As an applications engineer his areas of expertise include system optimization (in which he holds patents), chilled water and geothermal heat pump system design, and electrification of heating in hydronic systems. He has provided technical systems education to tens of thousands of engineers

through Trane's Engineers Newsletter Live series, and ASHRAE webcasts. Mick has also given in-person and virtual technical seminars throughout the world, and published many articles within the industry. Prior to his work with Trane, Mick received his MSME from the University of Wisconsin Solar Energy Laboratory and BSME from Northwestern University.

Mick served as 2021-2022 ASHRAE President. He is an ASHRAE Fellow, recipient of ASHRAE's Exceptional Service, Distinguished Service, and Standards Achievement Awards, and was Chair of SSPC 90.1-2010. Mick also Chaired the Advanced Energy Design Guide Steering Committee and was on project committees for the 50% Hospital and Office Buildings AEDGs. Mick chaired the USGBC LEED Technical Committee, served on the LEED Steering Committee and is a past member of several USGBC technical and education groups. In addition, he authored portions of the original ASHRAE Green Building Guide, and served on technical groups for the New Buildings Institute.

## Chapter Sponsors:

2023-2024 ASHRAE Alaska Chapter Sponsors
Gold Chapter Sponsor: (\$5,000)
COMPANY ENGINEERED HVAC SOLUTIONS
Forget-Me-Not Chapter Sponsor: (\$2,500)
Chapter Meeting Sponsor: (\$1,000)
Alaska
Chapter Web Sponsor: (\$400)
ENGINEERING GROUP, LLC Engineering, Inc.

Included with these sponsorship levels are various 'chapter benefits' as a way of thanking and honoring the generosity of our loyal supporters. Portions of the sponsorships are utilized to help fund the Alaska Chapter operations as well as donated to ASHRAE Research Promotion in the sponsor's name. Below is a list of the sponsorship levels along with the 'chapter benefits' for each level of donation.

#### **Corporate Donations:**

Corporate donations to the Alaska ASHRAE Chapter are recognized in five tiers:

#### •Gold Sponsorship:

#### \$5,000 & Above

• (1) Foursome team for annual golf tournament • (1) Hole sponsorship for golf tournament • (1) Seat for every chapter meeting -OR- (1) Range Sponsorship during Annual RP Shoot out • Announcement of your sponsorship during all meeting introductions and events. • Logo on website • Business card advertisement in newsletter (September – May) • Job postings on the ASHRAE Alaska website and on the newsletter. RP Donor Level - ASHRAE Associate: (Gold Commemorative Coin & Plaque, Listed in the annual Investor Honor Roll)

## Forget-Me-Not Chapter Sponsorship: \$2,500 - \$4,999

• (1) Range Sponsorship during Annual RP Shoot out • (1) Hole Sponsorship during Annual Golf Tournament • Announcement of your sponsorship during all meeting introductions and events. • Logo on website • Business card advertisement in newsletter (September – May) Job postings on the ASHRAE Alaska website and up to (2) on the newsletter RP Donor Level - Major Donor – Silver: (Silver Commemorative Coin & Plaque, Listed in the annual Investor Honor Roll)

#### Chapter Meeting Sponsor: \$1,000

• Sponsor's table available with display and literature prior to meeting (A website link and a hole or range sponsorship will be made available as an alternative for a virtual meeting sponsorship) • Logo on welcome message during monthly chapter meetings • Announcement of your sponsorship during one meeting introduction • Logo on website • Business card advertisement in newsletter (September – May) • RP Donor Level - Major Donor – Bronze: (Bronze Commemorative Coin & Plaque, Listed in the annual Investor Honor Roll)

### Web Sponsorship Package: \$400

• Logo on website • Business card advertisement in newsletter (September – May) • RP Donor Level – Honor Roll (Individuals only): (Receive blue desktop coin holder, Listed in the annual Investor Honor Roll)

#### Newsletter Sponsorship:

• Business card advertisement in newsletter (September – May)

For more information on corporate donations and the benefits please visit the "shop" section of our website at <u>https://ashraealaska.com/</u>.

\$150

Hi all, Happy April!

Yea more winter! (Just kidding)

On the student activities front, I talked to Mr. Wade Roach at Dimond High. As you all know, Dimond high has an engineering program preparing high schoolers interested in engineering. He mentioned they are actively looking for teachers to lead this program for the next year since he is retiring this year. So, if you know anyone that is interested in teaching, please apply so this program may continue.

Some of the students win scholarships and later come in to our workforce and help Alaska Economy.

View more on their website: Engineering / Engineering (asdk12.org)

We are at 13 student members in our local student chapter. Student membership is only \$25 and completely reimbursed by the local chapter. We also have the student scholarship available to local Alaskan students in relevant fields of study.

Thanks for supporting Student Activities.

Sam Ratnasigamani SA, ASHRAE AK. samr@rsa-ak.com

"The four years I spent working through the PLTW program have proved invaluable to me. As an engineering student, having learned the foundational concepts beforehand is a distinct advantage in my classes. I've also found my experience with projects and the design process to be relevant as I move forward with my research and my senior capstone project. My experience has made me more prepared for college and for going into the workforce."
